Anish Reddy

437-557-2209 | anishreddy3456@gmail.com | linkedin.com/in/anishreddyk | github.com/Anish-Reddy-K | arkr.ca | Waterloo, Canada

Technical Skills

Languages: Python, TypeScript, JavaScript, SQL, C/C++, Go, Bash
Backend & Web: FastAPI, Next.js, React, PostgreSQL, REST APIs, Auth (JWT, RBAC), pytest, Linux, Git
AI Engineering: LLM Applications, RAG, AI Agents, MCP, Tool Calling, LLM Evaluation, Information Retrieval, NLP
Cloud & DevOps: GCP (Cloud Run, Cloud SQL, BigQuery, Vertex AI), Azure, Docker, GitLab CI/CD, Airflow, Redis

Professional Experience

Software Developer (AI) Sep 2026 – Present
Geotab - Internal Talent Marketplace *Waterloo, ON*

- Architected and shipped Geotab's internal talent marketplace as sole developer (FastAPI, Next.js, PostgreSQL, GCP), giving 3,400 employees a skills-based view of 1,070 roles and their growth paths.
- Translated needs from People Ops, Total Rewards, and executive sponsors into product rules and plain-language decision records, designing a skills evidence model that never grades or ranks employees.
- Engineered a multi-LLM ensemble pipeline (Claude + GPT drafts, code-counted votes, validated output) that mapped 1,070 roles to 15K skill requirements, tuned over 3 eval rounds and reviewed by People Ops.
- Designed IDF-weighted role matching, typo-tolerant skill search, and grounded AI insights where every number is computed in code, powering career maps, gap analysis, and team reports.
- Shipped 500+ commits solo by pairing GitLab CI/CD (pytest, Cloud Run) with OpenCode agents and AI code review.

AI Engineer Intern May 2025 – Aug 2026
Geotab - Data Observability *Waterloo, ON*

- Built a production data quality agent that traced failed checks to their upstream root cause across BigQuery and Airflow.
- Rebuilt data lineage across a petabyte-scale ecosystem, raising lineage accuracy from ∼90% to near-100%.
- Developed anomaly and schema-drift detectors with owner alerts, catching silent data failures before downstream impact.

AI Engineer Intern Jan 2025 – Apr 2025
Brisk AI *Remote*

- Developed role-based AI agents connected to enterprise systems, automating operational workflows across teams.
- Built a field troubleshooting agent that diagnosed on-site issues, guided technicians, and captured expert workflows.

AI/ML Engineer Intern May 2024 – Apr 2025
OCAS (Ontario Colleges) *Waterloo, ON*

- Launched AI Advisor, a RAG chatbot on Azure with vector search and guardrails, used by 1,000+ students.
- Built an NLP resume parser that extracted skills, education, and career signals to personalize recommendations.

AI/ML Research Intern Sep 2023 – Apr 2024
SMART Centre *Waterloo, ON*

- Optimized small language and speech-to-text models for embedded devices, cutting memory use and latency.

Projects & Startups

View All Projects

Identipix | *Open-source selfie photo finder for Google Drive* | Live | Demo | Code

- Built selfie search over shared Google Drive folders with OpenCV face embeddings, so guests see only their own photos.

Aqua Pinion | *Drowning detection and prevention chest strap*

- Engineered a sensor-driven ML wearable that detects drowning with 95%+ precision and deploys a life-saving inflatable.

Open-Source Python Libraries | *3,900+ PyPI downloads* | diagrammer | redact-prompt | pyperfstats

- Published a diagram tool for AI agents merged into claude-code-templates (33K+ stars) and an LLM PII redactor.

Hubrix | *Co-Founder, wall-mounted LED display for live data and pixel art, with an open widget SDK* | Live
Simulacra | *Local LLM experiment platform* | Code

- Built a crash-safe worker that ran 10,000 LLM trials with zero lost results, doubling throughput via concurrency tuning.

Leadership

Founder & Director | *ConHacks* – Ran 3 hackathons; 750+ applicants, 250+ hackers, 15+ sponsors in 2026 2023 – 2026
Co-Founder & President | *Conestoga Computing Society* – Grew a 320+ member student CS community 2025 – 2026
Executive Lead | *Google Developer Groups On Campus* – Organized technical workshops and speaker series 2024 – 2025

Education

Bachelor of Computer Science (Honours) | Conestoga College, Waterloo, ON Sep 2026

Awards & Community

Awards: HackThe6ix (Best Beginner Hack), NIRD RISC (Gold Medal), FGSI (Gold Medal), CSI Student Service Award
Community: Mentor (Hack The North, Hawk Hacks), Judge (GDSC Hacks, ConHacks), Speaker (GDG, Queen's University)
